ABOUT COMPANY

Bon Trade AI is basically a AI trading platform Concept which is very popular globally. Our system is autofill plan. It is a great pleasure for us, that you have chosen for your financial freedom. Here you will get an opportunity to make your dreams come true, if you put reasonable efforts by honestly following the guidelines of the system. Bon Trade AI is finance marketing company to help the people and teach them to help other also. We join the people to help them and to achieve their goals of life. We believe on our strength to make a successful life and give a quality of life to leave in this beautiful world. This modern crowd funding model is generally based on three types of actions: the project initiator who proposes the idea or project to be funded, individuals or groups who support the idea, and a moderating organization (the "platform") that brings the parties together to launch the idea.

CRYPTO CURRENCY

Cryptocurrencies are digital tokens. They are a type of digital currency that allows people to make payments directly to each other through an online system. Cryptocurrencies have no legislated or intrinsic value; they are simply worth what people are willing to pay for them in the market.

CRYPTO TRADING

Cryptocurrency trading involves speculating on price movements via a CFD trading account, or buying and selling the underlying coins via an exchange. Here you'll find more information about cryptocurrency trading, how it works and what moves the markets.

CFDs trading are derivatives, which enable you to speculate on cryptocurrency price movements without taking ownership of the underlying coins. You can go long ('buy') if you think a cryptocurrency will rise in value, or short ('sell') if you think it will fall.

ABOUT BLOCKCHAIN

Blockchain is a decentralized digital ledger that securely stores records across a network of computers in a way that is transparent, immutable, and resistant to tampering. Each "block" contains data, and blocks are linked in a chronological "chain."

FOREX TRADING

Forex trading, also known as foreign exchange or FX trading, is the conversion of one currency into another. FX is one of the most actively traded markets in the world, with individuals, companies and banks carrying out around \$6.6 trillion worth of forex transactions every single day. While a lot of foreign exchange is done for practical purposes, the vast majority of currency conversion is undertaken by forex traders to earn a profit. The amount of currency converted every day can make price movements of some currencies extremely volatile – which is something to be aware of before you start forex trading.

FOREX MARKET

Being the largest financial market with a daily turnover of around \$7.5 trillion, the forex market is attracting traders from all across the globe. With many more favorable conditions for traders, Forex Trading in India is getting more prominence than ever before. When done with the right strategies, any determined trader could earn unmatched profits at the end of the day. A successful forex trader would purchase one currency and sell them at the right time with the help of mediators called forex brokers. If you are new to the forex market and trading, it is important to be guided by the right people.

RESULT AND IMPACT

Our AI powered trades will fetch great results for as long as the investors are willing to pool in funds. At FXBOT our aim is to establish a hassle free and profitable business. Our level plans ensure growth and AI trades ensure stability in the growth patterns. Investments grow steadily and traders enjoy huge profit margins. So far FXBOT has generated approximately a profit of 2.7 Million USD across 5 countries.
